

CONDUIT MEASURING AND PULLING TAPES

1250 LB. MULETAPES BY NEPTCO

1250 LB. M

1250 LB. DETECTABLE MULETAPE

MULETAPE[®]
By NEPTCO

*Proven Performance
in Engineered Materials*

NEPTCO

THE ONE-STEP MULETAPE® ADVANTAGE

NEPTCO

*Thread, measure and pull with
the same product.*

The MULETAPE® family of measuring and pulling tapes substantially reduce your cable installation labor, material and inventory costs by providing a threading line, a measuring tape and a winchline in one product.

Consider the advantages of MULETAPE® over traditional string, rope and winchline combinations.

*When you add
it all up, you
can't buy a
more effective
winchline.*

- ◆ Prelubricated for easy pulling and reduced friction
- ◆ Available in strengths from 200 to 6,800 lbs. (2727 kg.) for greater pulling capacity and durability
- ◆ Durable printed with sequential footage or metric markings to make locating easier
- ◆ Packaged in splice-free lengths up to 100,000 ft. (30 km.) for faster, easier cable placement
- ◆ Low elongation enhances worker safety and prevents crushed equipment
- ◆ Lightweight, easily blown through conduit or atmosphere
- ◆ Reusable
- ◆ Available in polyester and aramid
- ◆ Detectable MULETAPE® contains an insulated metallic conductor for easy cable and chat location
- ◆ Compatible with NEPTCO'S fast and efficient MULEGUM® detection system

DON'T GET BURNED

Get MULETAPE® By NEPTCO!

Prelubricated MULETAPE® reduces friction during cable pulls and practically eliminates cuts in innerduct or "burn through."

Specify NEPTCO

NEPTCO is ISO 9001:2000 certified, and has stringent quality measures in place to assure delivery of defect-free products on time to anywhere in the world. Contact us for more information.
