

The New **MULEGUN**[®]

Finally, the answer to your duct capacity problems!

Whether you're interested in locating all-dielectric cables or trying to maximize duct space, the compact and versatile **MULEGUN**[®] will save you time and money.

The new **MULEGUN's** modular components allow you to take advantage of the latest micro technology at a low cost.

Now you can...

- Install microduct into occupied and unoccupied duct
- Maximize duct capacity
- Install detectable **MULETAPE**[®] into occupied and unoccupied duct
- Locate all-dielectric cables
- Rehabilitate centralized cable monitoring systems
- Map infrastructure for blueprint revisions

Contact NEPTCO today and save time and money with the revolutionary **MULEGUN**. There's no other system like it!

Installs Microduct
